

Glossary of ral's Technical Terms

3pb	three-price break trend
3per	three-period rolling range trend
3-set	A method for developing opening range triggers
AC	Additive candle
BBR	Bull/Bear Reserve
BC	bozu controller (the body midpoint of the ruling bozu above or below the market)
BMP	Body mid-point (the midpoint between the open and close of a period)
BP	Breakprice...the price (typically a close) that breaks (reverses) the prevailing trend
BW	body weight
CF	carry forward 3pb
CG	Center of gravity: based on equal weighting of candle points (open, high, low, close)
CON	continuous 3pb method
CP	Candle pattern
CPZ	Critical price zone ... derived from the scissors method
CTR	current trading range as defined by most recently formed market structures
DSS	downside structure (dss is a downside structure interior to a prevailing USS)
DTR	daily trading range as defined by complete market structures
EBB	Extreme Bollinger Band (13 periods ema and 2.618 standard deviation envelopes)
EOB	end of box
EOBV	end of box volatility
EOR	refers to eighth of range used in setting targets, stops and gaintaking points
FOPS	Fall off pattern signa;...a berish candle pattern
FS	fresh start 3pb
GA	Gann Angle
GMP	Globex mid-point
LTS	Long term stop
LWWB	Larry Williams' Weekly Buy signal
LWWS	Larry Williams' Weekly Sell signal
msh	market structure high
msl	market structure low
MTR	major trading range in the past 89 sessions
NC	Non-confirmation
NH	new high
NL	new low
NS	Natural Square
NS8	Natural Square price line at every 8th of current Natural Square range
Nullification	Price has violated a structural price point; a major reversal signature
OF	open filter 3pb
ORM	opening range method ("to orm" means to use the ranges of reference as triggers)

PT	Pricetime
PTB	pricetime box
PTBox	Refers to the 34-period during which waves (bullish or bearish) form and grow
R:R	Reward:Risk estimate for any trade. Desirable trades are $R:R > 2.00$
RMP	Range mid-point (the mid-point between high and low of a period)
Scissors	A method for projecting future prices based on two defined periods
Slingshot	A rapid reversal of trend following price hitting the upper or lower EBB
SS	"slingshot" move from EBB
T	target
TOPS	Take off pattern signal...a bullish candle pattern
TR	trigger
TRW	trend weight
TSW	Total Scissors Weight derived from the scissors method
USS	upside structure (uss is an upside structure interior to a prevailing DSS)
V/C	void of course moon
V/C	Void of course:refers to the moon's period without aspect prior to entering next sign
VOS	Void of Structure (post 34-period end of box before fully formed structure occurs)
VR	volatility reversal
X	An important "center of gravity" type projection derived from the scissors
